

Principal Action Plan

Simple Steps to help you create a Positive School

1. Share our Web site (www.PositiveSchool.com) with your leadership team and teachers.
2. Encourage your teachers to read the *Positive School Manifesto*. This can be downloaded for free at www.PositiveSchool.com.
3. Invite your teachers on the bus and have them read a copy of *The Energy Bus: 10 Rules to Fuel your Life, Work and Team with Positive Energy* and/or *The No Complaining Rule: Positive Ways to Deal with Negativity at work*.
4. When you give your teachers a copy of the book also give them a bus ticket (available at www.PositiveSchool.com) and ask them to hand in their ticket to let you know they are “on the bus.”
5. Once your teachers and staff understand the process and principles necessary to create a Positive School then you will want to reinforce these concepts and empower them to take action.
6. The next step is to have one of our facilitators speak to your teachers (workshop) and students (assembly) to get them on the bus and moving in the right direction. Many schools choose to do a teacher workshop and student assembly on the same day to enjoy cost savings.
7. Contact info@jongordon.com or call 904.285.6842 to speak with a member of our team to schedule a workshop and/or assembly.
8. Utilize the Positive School free resources (bus tickets, posters, newsletter, lesson plans, action steps, etc) and books to cultivate your positive school culture, reinforce the message and insure lasting and positive change.
